

The New 50 Simple Things Kids Can Do to Save the Earth

The world's a better place with EarthWorks Groups John Javna in it. He, along with his daughter, Sophie, help kids go from aware to active with simple (but inspiring) projects, tips, and little-known facts that puts a kid's own carbon footprint into perspective. In *The New 50 Simple Things Kids Can Do to Save the Earth*, Sophie and John have revised the original best-selling book for a concerned and vibrant Web 2.0 youth market. Its easy-to-do and kid-friendly projects show that kids can make a difference, and each chapter is packed with tons of links to groups and resources. What makes this book stand out, though, is that it doesn't just inform kids, it encourages them to make a difference by providing them, their friends and their families the tools to take action. Together, John and Sophie enlighten, educate, and encourage our children with easy and smart ways to save the earth. Pretty darn cool, huh? We thought so. What you can do: Order now and help save the only earth we've got. Mother Earth needs our help now.
