

# A Practical Treatise on the Manufacture of Perfumery: Comprising Directions for Making All Kinds of Perfumes, Sachet Powders, Fumigating Materials, ... Volatile Oils, Balsams, Resins, and Other Na

Excerpt from A Practical Treatise on the Manufacture of Perfumery: Comprising Directions for Making All Kinds of Perfumes, Sachet Powders, Fumigating Materials, Dentifrices, Cosmetics, Etc., Etc., With a Full Account of the Volatile Oils, Balsams, Resins, and Other Natural and Artificial Perfume-Substances, Including TheA translation of the portion of the Handbuch der Parfumerie-und Toiletteseifenfabrikation, edited by Dr. C. Deite, relating to perfumery and cosmetics, is presented to the English reading public with the full confidence that it will not only fill a useful place in technical literature, but will also prove - for what it is chiefly intended - a ready book of reference and a practical help and guide for the perfumers laboratory. The names of the editor and his co-workers are a sufficient guaranty of its value and practical usefulness, they all being experienced men, well schooled each in the particular branch of the industry, the treatment of which has been assigned to him.About the PublisherForgotten Books publishes hundreds of thousands of rare and classic books. Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com)This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
