

History of Chemistry (Classic Reprint)

Excerpt from History of Chemistry
The first edition of this book appeared in 1894. While it has passed through a number of editions since, there has been no attempt to bring it up to date nor to revise it in any way, and although there has been much to preoccupy me, especially in other lines of work, I recognize the fact that there has been no excuse for such neglect. It has now been entirely rewritten on a changed plan of arrangement and made to cover the great progress in the science which has taken place since it first appeared. Some material considered unnecessary has been eliminated so that it might be kept within the same compass that has proved so convenient for those who could not devote to the subject the time required by the larger treatises. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
