

The Nature Watch Collection - Book One: Color Edition (Volume 1)

The publisher is William R. Parks www.wrparks.com The books are printed by CreateSpace. This color paperback edition is available for \$24.95. The B & W paperback edition is available for \$7.95. The Kindle eBook edition is available in color for \$4.95. For over twenty years Gerry Rising has been writing a weekly Nature Watch column for The Buffalo News. A collection of some of his columns is now available in paperback. Harold Stiver, the superb Canadian nature photographer, has joined Dr. Rising in this publishing project and almost all of the photographs that accompany the columns are his. For those of you as yet unfamiliar with Dr. Rising's or Stiver's work, you have a real treat ahead when reading this book. Dr. Gerald R. Rising Sr., the Gerry Rising of these columns, is State University of New York Distinguished Teaching Professor Emeritus at the University at Buffalo. His day job at the university was working with school mathematics teachers and teaching mathematics and computer science. Rising is the author of over a dozen mathematics texts, the most recent include, Program Your Calculator and About Mathematics, the latter written for college liberal arts students. Not a professional biologist, Professor Rising seeks to communicate to his readers his own involvement with and love of nature. He has explored the out-of-doors through hiking, canoeing and biking. This year, at age 85, he plans to ride his motor scooter on a camping trip around Lake Michigan, completing his similar circumnavigations of all the Great Lakes. Rising lives with his wife Doris in Amherst, New York, a Buffalo suburb. He has two children, four grandchildren and a great granddaughter. Harold Stiver is a partner in a financial services company who lives with his wife Elaine in Paris, Ontario. He has two daughters and one grandson whom he spoils relentlessly. He has long had a

fascination with the natural world and has traveled widely exploring and photographing it. You can see more of his images at <http://www.singularvideo.com>. He is the author of a series of eBook Guides for Photographers and Explorers.
