

## Look Out Ladybug (Follow the Trail Books)

This sturdy board book filled with big, bright, full-page, full-color illustrations has tiny sunken tracks on every page. Each track is just the right size so that toddlers can run a finger across the picture, following the trail of a colorful ladybug. Some trails are straight, while others have curves or wiggles or corners--but each trail moves across a picture in exactly the way that the story's hero moves. Very young children will love these stories, as they trace a finger through a flower garden, or up a flight of stairs, or across the back of a big, furry dog.
