

Dawn To Dusk: An Essay on Humanity

Life is idea, attitude and action. Why not make a difference this dawn? Let us today sincerely have a wildest hope to catch fish in the desert. Trust the land and faith will pour heavily to flood with deeper ponds and longer lakes full of fishes at the end. Do it and you shall get it? Believe it, trust, faith and hope are the limbs of the thought you dream of from dawn to dusk. Nothing lies above your resolution to translate dusk into dawn. The spider of life invariably keeps making the web for the self to be trapped. It is truth that the bees do not sit on the dung. Life as bees is to search the nectar of nature so that the honey on earth can spread sweetness of mankind. The garden of life should not restrict its fragrance within the boundary of self. Rise above to embrace the world leaving behind the ego of the self. Let us all be grateful to the life living in us from dawn to dusk. Dive deeper into the dusk to see the depth of dawn. Let not the hopes of billions and billions faint before the life gives way.
