

Natural Theology, or the Existence, Attributes and Government of God: Including the Obligations (Classic Reprint)

Excerpt from Natural Theology, or the Existence, Attributes and Government of God: Including the Obligations This volume is the result Of the Authors conviction Of the need of such a work. On being called to teach in the department Of Natural Theology, he found no text-book in use in the Institution, and on inquiry, none was found in the market, Which appeared to be sufficiently adapted to the instruction Of a class in Col lege, to justify its introduction. The consequence was, the work of instruction was undertaken by means Of original Lectures. This process revealed what all experienced teachers have found 130 be true namely, that it is difficult for most students to come to their recitations with good lessons, from the hearing Of a Lecture, read to them one or two days previously, Without a text-book, that they can carry with them into their private study. TO remove this difficulty, the Lectures, first read to a class, have been revised, and published in this convenient form. On the subject Of merit, the Author will leave these brief pages to speak for themselves, only stating that they teach what he earnestly believes, and that he intends nothing but good in giving them to the public.
