

## In Touch & In Tune

In Touch and in Tune is the first authorized translation of a legendary self-help guide *Iskusstvo byt soboy*, (lit. The Art of Being Yourself) by Russian writer and psychotherapist Vladimir Levi. For several generations of Russian readers this book became a Bible of self-awareness and self-regulation. It contains exercises for relaxation, auto-suggestion and role training. Translated into German, French, Spanish, Danish and 10 other languages, the book is now available to English-speaking reader through a masterful translation by Dr. Michelle MacGrath.
