

## Sustainable Environmental Management: Proceedings of the Pellston Workshop on Sustainability-Based Environmental Management, 25-31 August, 1993, Pellston, Michigan (SETAC Special Publications Series)

How do we manage interdisciplinary cooperation in order to maintain a sustainable environment? This book presents the collected papers from a Pellston Workshop sponsored by SETAC and the Ecological Society of America (ESA). Building consensus positions surrounding the science and regulatory practice of sustainable environmental management, participants represented government, industry, and academia. These proceedings reflect the current state of the art and focus on an assessment of transboundary problems landscape and watershed management product stewardship biodiversity protection and restoration urban environmental management environmental restoration
