Rare glimpses of birds are the only reminder of the freedoms Rain Hawkins once had. Now segregated into a mixed-race zone within the United Zones of the Authority, under tyrannical rule of President Nicks, Rain is forced to endure the bleak conditions set upon her. The possibility of a way out arises when Rain discovers an organized resistance called The Freedom Front, and learns that she, along with many other multi-racial people, has special abilities. Determined to overcome her situation, Rain sets out on a mission with the resistance that will fill her life with wonder, romance, and the undying hope for a better world.
