

The Cost of Being Green Before Green was Cool: A 51 yr. Odyssey

In April of 93 and March of 97 the editors of Western Outdoor News took the California Department of Fish and Game to task for under-reporting mountain lion involvement in disappearances. University of Idaho Statistic Professor Kirk Trigsted conducted Permutation Tests on multiple disappearances in nine different areas of Ca. that clearly rejected that they were random events. In each of the nine all had vanished during time-frames and in areas that could have encompassed the life span and the home range of a single cougar. Letter from Marv Hagedorn Idaho District 20s representative, Regarding the information you have been putting together on the Mule Deer herds here in SW.[Idaho]. I agree we are selling tags for a product that does not exist and have been doing it for a very long time. Following his only conviction, the author and his receptionists passed polygraph tests disputing the three arresting officers testimonies that he was at his shop the day in question, and had individually confessed his guilt to each of them. Moreover Warden Stegall in his affidavit claimed that the author signed the evidence receipt. However the document contains only Donna his receptionists signature. Despite the conviction, which focused on bighorn sheep, San Bernardino National Forests head wildlife biologist Steve N Loe, giving him the combinations to the areas locked gates authorized the author, on July 30th of 92, to survey the San Gabriel Mountains Nelson Bighorn populations. California Legislator Bill Leonard after the author forced a rollback in D-14s hunting dates wrote, It is commendable that citizens such as yourself feel so strongly that you help bring about actions by government agencies.
