

HOPE, The Secret of Living

Sometimes we find ourselves in bad situations. Situations that leave us feeling depressed, angry and hopeless. We simply go through the motions of life, never really living or feeling any sort of happiness... But guess what? There is great news! Hope is Alive! Hope is: The feeling that what is wanted can be had or that events will turn out for the best. Hope turns a dark day into one filled with sunlight. Hope whispers to you and says, Even if things aren't alright, right now, they are going to be. Hope shouts, Get out of bed! Today is going to be different and full of great things! Hope tells you, You may be standing deep in a ditch of despair right now, but look up, can't you see the stars? Hope comforts you and tells you, You deserve a good life and you deserve to be happy. Expect good things to come your way! Hope can mean many different things to many different people, but one thing is for sure, without it, we are not really living... In this book, you will hear from several different people, from different backgrounds, finding out what hope means to them and how it has played a key role in their lives. Here you will find Hope for your own life and also learn how to spread Hope to others, saving their lives as well...
